DARNELL CASTERS

Industrial quality, ball bearing casters for easy moving.

Darnell has long been known for its superior standards of caster manufacturing. Featuring an extra heavy-duty, double-ball bearing system, Darnell casters are built to sustain heavy use. Perfect for schools, churches, or any facility that moves pianos frequently. Suitable for grands or uprights.

Sold individually, so please specify total number of casters. A steel socket will be included with each caster please specify round $(15/16'' \times 1\%'' \text{ stem } \times 2\%'' \text{ plate})$ or square $(15/16'' \times 1\%'' \text{ stem } \times 1\%'')$

DARNELL DUAL-WHEEL STEM CASTERS

Wheels measure 2" in diameter, each wheel 3/4" wide. Semi-resilient, corded neoprene wheels sustain heavy wear, but will not damage tile or wood floors. Heavy-duty, double-ball bearing system. Load capacity 200 lbs. per caster. Steel housing available in 2 beautiful finishes either will provide an attractive complement to grands or uprights.
